Will anyone know I'm using Kii?

All services accessed are kept strictly confidential within the limits of the law. This means we will not disclose any information about you or your family to anyone without your consent.

How can I be sure this will be right for me?

We have professionals who are trained in delivering care with sensitivity to differences in spiritual, cultural, race, language, disabilities, gender, and sexual orientation.

What's the cost?

There is no cost to use Kii. This program has been provided to you by your employer. If you need more specialized support that isn't covered by the program, your nurse can suggest an appropriate care plan and help you navigate coverage via other benefits and/or the public health care system.

Will there be a long wait time when I call in?

A real-life person (Kii doesn't use bots!) will answer the phone within minutes and the person answering is actually a highly skilled nurse. You'll answer a few questions and then be directed directly to the service best suited to support you.

Do I have to download an app? How complicated is it to access this online?

There is no app to download! You can access Kii via a browser on your phone, computer or tablet. Creating an account takes less than a minute and our online experience is seamless and easy to navigate.
